ICUMSA 45 SUGAR - WHITE REFINED

MasterCom UK are specialised in the sale of high quality ICUMSA Sugar products such as ICUMSA 45 and MasterCom Group Holding have been involved in the Sugar business since 2007. As an international supplier of ICUMSA 45 which we source from Brazil, we will also take care of the export and import needs to your designated destination and will maintain the highest regulatory standards worldwide.

ICUMSA 45 Sugar is the most highly refined form of Sugar and has a sparkling white colour and is most often the type sold direct to consumers. It is suitable for human consumption and used in a wide range of food applications and is the easiest of sugars to dissolve. Brazil is among the largest sugar exporters and is one of the largest Sugar can producers in the world. MasterCom UK will always seek to tailor the requirements and needs of their clients. Our supply is plentiful and trade in bulk shipments.

The country of origin: Brazil.
